# DEAR READERS,

I am delighted to present our Fall 2017 list from National Geographic Books. This season, we will be publishing an exciting array of titles that encompass the National Geographic universe. From the breathtaking photography in our dynamic gift book *National Geographic Night Vision* to the exotic world travel revealed in our coffee table extravaganza *Timeless Journeys*, this is a list that spans the globe, the mind, and the imagination.

I am particularly thrilled that *New York Times* best-selling author Dan Buettner will be bringing his enormous fan base a new offering: *The Blue Zones of Happiness*. The follow-up to his best-selling *Blue Zones Solution*, where he revealed the secrets of living longer, Dan Buettner will now disclose how the happiest people in the world live—and show us how to create more happiness in our own lives. *National Geographic Atlas of Beer* superimposes our world-class, award-winning cartography on one of the world's oldest (and tastiest!) beverages. *View From Above*, from former NASA commander Terry Virts, offers a spectacular view of Earth from the man who has taken the most pictures from space. And from one of today's groundbreaking research fields, Scott C. Anderson delves into how our gut affects our brain in *The Psychobiotic Revolution*.

Last but not least is the 7th edition of our best-selling *National Geographic Field Guide to the Birds of North America*. Now in its 35th year, this guide has been fully revised with the most up-to-date taxonomy from the American Ornithologists' Union. With more than 2.75 million copies in print, this beloved book is the one of the anchors of our wildlife program—and one of the most popular nature guides ever published.

Thank you for supporting National Geographic—our books and our mission.

Warmly,

**LISA THOMAS**

## THE BLUE ZONES OF HAPPINESS

A BLUEPRINT FOR A BETTER LIFE

**Dan Buettner**

*New York Times* best-selling author Dan Buettner reveals the surprising secrets of the world's happiest places—and shows how we can all apply the lessons of true happiness to our lives. In this inspiring book, Buettner offers game-changing tools for setting up your life to be the happiest it can be. In these illuminating pages, you'll:

- Meet the world's Happiness All-Stars—inspiring individuals born in places around the world that nurture happiness as well as Americans boosting well-being in their own communities
- Discover how the three strands of happiness—joy, purpose, and satisfaction—weave together in different ways to make Denmark, Costa Rica, and Singapore some of the world's happiest places
- Use the Blue Zones Happiness Test to pinpoint areas in your life where change could bring more happiness—and then find practical steps to make those changes
- Learn the Top 10 ways to create happiness, as revealed by a panel of the world's leading experts convened specifically for this project
- Boost your own happiness by applying the lessons of Blue Zones Project communities—America's largest preventive health care project, which has already improved the health and happiness of millions of people across the United States.

DAN BUETTNER is the founder of Blue Zones, an organization that helps Americans live longer, healthier lives. His groundbreaking work on longevity led to his 2005 *National Geographic* cover story, "Secrets of Living Longer," and two national bestsellers, *The Blue Zones* and *Thrive*. He lives in Minneapolis, MN. Visit him on Facebook and Twitter, and at his website [bluezones.com](http://bluezones.com).

## NATIONAL GEOGRAPHIC NIGHT VISION

MAGICAL PHOTOGRAPHS OF LIFE AFTER DARK

National Geographic, with a Foreword by Diane Cook and Len Jenschel

Celebrate the beauty of the world after dark—from starlit skies and glowing city streets to exquisite nocturnal creatures and the wonders that emerge after sunset—with this amazing new book from National Geographic.

The world is a different place after dark, and this magnificent photography book illuminates the mesmerizing realm of all things nocturnal. After dark, the light is different; there is an unspoken intimacy; new and different activities occur. And in the natural world, an unseen universe comes alive. Page after page of vivid photos explore the many nuances of night vision—from the sea by moonlight to night markets in Laos to the face of a child lit up by a screen in a darkened room. The range of images is breathtaking: A smoky jazz club. Flowers that bloom only at night. Phosphorescent fish. Lions photographed with infrared cameras. The Eiffel Tower, all lit up. Faces around a campfire. A stadium lit by floodlights. Earth from space. Elegant, sexy, and a little mysterious, this richly illustrated book is a stunning pathway to some of the world's most captivating sights.

DIANE COOK and LEN JENSHEL are two of America's foremost landscape photographers. Their work has been published in numerous magazines including *National Geographic*, *Condé Nast Traveler*, *Audubon*, *The New Yorker*, and *Fortune*. They have also published numerous fine art books of their photographs, including *Travels in the American West*, *Hot Spots: America's Volcanic Landscape*, and *Aquarium*. They are the recipients of numerous fellowships and their work has been exhibited in more than 100 museums and collections worldwide, including the Art Institute of Chicago and the Yokohama Museum in Tokyo.

## TIMELESS JOURNEYS

TRAVELS TO THE WORLD'S LEGENDARY PLACES

National Geographic, with a Foreword by Ford Cochran

From Machu Picchu to the Pyramids of Giza and beyond, this travel-lover's delight takes readers on a breathtaking visual journey to the world's most historic wonderlands.

Pack your bags for an extraordinary adventure with National Geographic to the places that have captivated our imaginations for centuries. In this visually stunning volume, the world's leading authority on cultural travel and history showcases fifty bucket-list-ready destinations on every continent, from Easter Island's haunting stone moai to Kyoto's breathtaking temples. Vintage photographs from the National Geographic archives tell the backstory of the discovery and earliest visitors to places like Machu Picchu, Pompeii, Egypt's Great Pyramids, and more, while showstopping contemporary photographs bring them to life in exquisite detail. Full-spread features on lesser known and less visited sites, such as Pompeii's better-preserved sister city Herculaneum, offer readers extraordinary opportunities to deepen their travel experience and discover places where the past can truly come to life.

FORD COCHRAN is Director of Programming for National Geographic Expeditions, selecting the writers, photographers, explorers, scholars, and staff the Society sends to destinations around the world. Over his more than 20 years with the Geographic, he has written for *National Geographic* magazine, served as principal contributing writer for its *Historical Atlas of the United States*, and documented numerous Society-funded research expeditions in the field. Ford is the featured lecturer for the new National Geographic-Great Courses college-level course Wonders of the National Parks: A Geology of North America.

# NATIONAL GEOGRAPHIC FIELD GUIDE TO THE BIRDS OF NORTH AMERICA, SEVENTH EDITION

Jon L. Dunn and Jonathan Alderfer

This fully revised and updated edition of the best-selling North American bird field guide is the most up-to-date guide on the market. Perfect for beginning to advanced birders, it is the only book organized to match the latest American Ornithologists' Union taxonomy.

With more than 2.5 million copies sold, this perennial bestseller is the most frequently updated of all North American bird field guides. Filled with hand-painted illustrations from top nature artists, this latest edition is poised to become an instant must-have for every serious birder in the United States and Canada. The 7th edition includes 37 new species for a total of 1,023 species; 16 new pages allow for 250 fresh illustrations, 80 new maps, and 350 map revisions. With taxonomy updated to recent significant scientific rearrangement, the addition of standardized banding codes, and text completely vetted by birding experts, this new edition will stand at the top of the list of birding field guides for years to come.

JON L. DUNN is a leading expert on the identification and distribution of North American birds. He is a consultant for *Birding* magazine, and former chair of the American Birding Association's Checklist Committee.

JONATHAN ALDERFER is chief consultant for National Geographic's Birding Program and a widely published author and field guide illustrator. One of the nation's foremost birding artists, he is well known for his authority on North American birds and his expertise as a field birdwatcher.

THIS GUIDE INCLUDES ALL SPECIES THAT OCCURRED IN NORTH AMERICA—INCLUDING ADJACENT ISLANDS AND SEAS WITHIN 200 NAUTICAL MILES OF THE COAST OR OFFSHORE ISLANDS.

BRIEF FAMILY DESCRIPTIONS ARE FOUND AT THE BEGINNING OF EACH GROUP.

DETAILS SUCH AS SIZE AND VOICE OF A BIRD ARE NECESSARY TO IDENTIFY SPECIES.

EACH SPECIES HAS A UNIQUE TWO-PART SCIENTIFIC NAME.

GORGEOUS FULL-COLOR ILLUSTRATIONS FOR EACH SPECIES—including subspecies, juvenile birds, and seasonal plumage changes.

## HUMMINGBIRDS Family Trochilidae

These birds hover at flowers to sip nectar with needlelike bills. Adult males distinctive; others often identified to species by calls. Males' iridescent throat feathers (gorget) look black in poor light. SPECIES: 340 WORLD, 24 N.A.

### Mexican Violetear *Colibri thalassinus* L 4½" (11 cm) MEVI

Rather large and green overall with dark subterminal tail band; bill slightly decurved. **Adult male** has blue-violet patches on face and breast; adult female less intensely colored and with reduced blue on breast. **Immature** duller with reduced blue on face, spotty iridescence on breast, and dusky gray belly.

**VOICE:** Song a repeated, often incessant *tsip tsup* with other notes mixed in; often given from a perch.

**RANGE:** Tropical species, found from highlands of central Mexico to northwestern Nicaragua; distinct seasonal movements. Formerly known as Green Violetear, northern population has been split from solid green-breasted southern populations, now known as Lesser Violetear (*C. cyanotus*), found from Costa Rica to S.A. Most records in N.A. are in late spring and summer from the Hill Country in TX, where nearly annual. Casual elsewhere in eastern N.A., with multiple records to northern tier of states and ON. Accidental in West (AB, CO, CA).

### Green-breasted Mango *Anthracothorax prevostii*

L 4¾" (12 cm) GNB M Rather large hummingbird with a fairly heavy, decurved bill and purplish to copper-chestnut (light dependent) color in outer tail feathers. **Adult male** is green overall. **Adult female** shows broad, blackish blue stripe on underparts bordered in white; outer tail feathers with white tips. **Immature** similar to female but shows cinnamon stripe from chin to flanks.

**VOICE:** Usually silent. Gives hard ticking chip notes, often in a series; higher *sip* calls in flight.

**RANGE:** Tropical species. Northern ssp., *prevostii*, is found from north-east Mexico to northern C.A.; other ssp. found to northern S.A. Casual in fall and winter to south TX; accidental NC, GA, and WI.

### Lucifer Hummingbird *Calothorax lucifer* L 3¾" (10 cm) LUHU

Rather small; distinctly decurved bill. **Adult male** has green crown, elongated purple gorget; long, forked tail, usually held in a point, sometimes spread in flight. **Female** is rich buff below; buff stripe behind eye widens at side of neck. Outer tail feathers rufous at base, tipped with white. **Immature male** resembles female but tail slightly longer; some have a few purplish throat feathers, as do some adult females. Territorial adult male perches high on bare branch.

**VOICE:** Call a hard, rich *chih*, sometimes doubled; rapid series of notes in chases.

**RANGE:** Prefers washes in arid foothills and up into lower mountains. Visits feeders, also often encountered at desert flowering plants. Uncommon Chisos Mountains, rare Christian and Davis Mountains; casual elsewhere Trans-Pecos and central TX. Rare southeastern AZ, southwestern NM.

# NATIONAL GEOGRAPHIC ATLAS OF BEER

## A GLOBE-TROTTING JOURNEY THROUGH THE WORLD OF BEER

Nancy Hoalst-Pullen and Mark W. Patterson, with a Foreword and Tasting Notes by Garrett Oliver

This atlas is the ultimate beer lover's guide to the world, filled with stunning photography, great storytelling, intriguing beer destinations, fascinating historical perspectives, and firsthand accounts from brewers and bar owners around the globe.

The most visually stunning and comprehensive beer atlas available, this richly illustrated book includes more beers and more countries than any other book of its kind. Including beer recommendations from Garrett Oliver, the famed brewmaster of Brooklyn Brewery, and written by "beer geographers" Nancy Hoalst-Pullen and Mark Patterson, this indispensable guide features more than 100 illuminating maps and over 200 beautiful color photos. The fascinating narrative explores beer history, geography, trends, and tasting on six continents (and how to order a beer in 14 languages!). Travel tips include the best breweries, beer festivals, and pubs in each location. Smart, compelling, and practical, this elegant book will help you discover the best beer wherever you are.

NANCY HOALST-PULLEN, Ph.D., is an associate professor of geography and Geographic Information Science (GIS) director at Kennesaw State University. She has co-edited three books with fellow "Beer Doctor" Mark Patterson, including *The Geography of Beer*. She is also associate editor of the *Journal of Applied Geography*. Hoalst-Pullen's favorite beer is a Bavarian-style hefe weissbier, served at room temperature.

MARK PATTERSON, Ph.D., is a professor of geography at Kennesaw State University. His specialties are in geospatial technologies, spatial analysis, and environmental geography. He has co-edited three books with fellow "Beer Doctor" Nancy Hoalst-Pullen, including *The Geography of Beer*. Patterson's favorite beer style is a chocolate stout.

GARRETT OLIVER is one of the world's foremost authorities on the subject of beer. Oliver is the brewmaster of Brooklyn Brewery, editor-in-chief of *The Oxford Companion to Beer*, author of *The Brewmaster's Table*, and winner of the 2014 James Beard Award for Excellent Wine, Beer or Spirits Professional. He has judged beer competitions from the Great American Beer Fest to the Great British Beer Festival. In the years since joining the Brooklyn Brewery, Oliver has continued to be a tireless advocate for bringing together great beer and good food, touring the world to introduce countless people to the tastes he loves. He has hosted more than 900 beer tastings, dinners, and cooking demonstrations in 16 countries, and writes regularly for beer and food-related publications.

## VIEW FROM ABOVE

AN ASTRONAUT PHOTOGRAPHS THE WORLD

**Terry Virts, with a Foreword by Buzz Aldrin**

Few people get the experience of seeing the world from outer space—and no one has taken as many pictures of Earth from above as Terry Virts. Celebrated NASA astronaut, pilot of the space shuttle, crew member on Soyuz, and commander of the International Space Station, Virts has spent more than 200 days in space—and very few of those days went by without his reaching for his camera.

Now as never before, Virts shares the astronaut's view of the world, offering astounding aerial views of our planet and the vastness that surrounds it. The colors, shapes, details—and the stories they tell—are endlessly fascinating. Virts's book marries his stunning photographs with glimpses of everyday life in orbit. And amid this amazing show of Earth spectacles, he reflects on how the astronaut's point of view has shaped his life and spirit. Filled with magnificent photographs that will astonish and inspire, this book—and its intrepid author—becomes our guide to a new way of looking at the world.

Astronaut TERRY VIRTIS grew up in Columbia, Maryland, outside of Baltimore. He wanted to be an astronaut ever since he read his first book about the Apollo missions when he was in kindergarten. He earned a bachelor of science degree in mathematics from the United States Air Force Academy in 1989, and a master of aeronautical science degree in aeronautics from Embry-Riddle Aeronautical University. Selected by NASA in 2000, he was the pilot of STS-130 aboard the space shuttle *Endeavour*. In March 2015, Virts assumed command of the International Space Station, and has spent over 200 days there. Virts is one of the stars of the IMAX film *A Beautiful Planet*, released in April 2016.

## THE PSYCHBIOTIC REVOLUTION

MOOD, FOOD, AND THE NEW SCIENCE OF  
THE GUT-BRAIN CONNECTION**Scott C. Anderson with John F. Cryan, M.D. and Ted Dinan, M.D.**

Written by the leading researchers in the field, this information-rich guide to improving your mood explains how gut health drives psychological well-being, and how depression and anxiety can be relieved by adjusting your intestinal bacteria.

This groundbreaking book explains the revolutionary new science of psychobiotics and the discovery that your brain health and state of mind are intimately connected to your microbiome, that four-pound population of microbes living inside your intestines. Leading medical researchers John F. Cryan and Ted Dinan, working with veteran journalist Scott C. Anderson, explain how common mental health problems, particularly depression and anxiety, can be improved by caring for the intestinal microbiome. Science is proving that a healthy gut means a healthy mind—and this book details the steps you can take to change your mood and improve your life by nurturing your microbiome.

SCOTT C. ANDERSON is a veteran science journalist with specialization in medical topics and computer programming. He was one of the creators of Lego Island, a computer game, and his work has combined computer programming with medical research. He runs a laboratory called Freedom Health that studies bacterial health in racehorses and has developed prebiotics for animals and humans. He lives in Hudson, Ohio (between Cleveland and Akron), was born in Frankfurt, Germany, and recently lived in Sonoma, California.

JOHN F. CRYAN is professor and chair of the department of Anatomy & Neuroscience, University College Cork. A principal investigator in the Alimentary Pharmabiotic Centre, a leading-edge institute researching the role of microbiome in health and disease, he lives in Cork, Ireland.

## BIG CHICKEN

THE IMPROBABLE STORY OF HOW ANTIBIOTICS TRANSFORMED MODERN FARMING AND CHANGED THE WAY THE WORLD EATS

**Maryn McKenna**

In this riveting investigative narrative, renowned health journalist and *National Geographic* contributor Maryn McKenna documents how antibiotics transformed chicken from local delicacy to industrial commodity and human health threat, uncovering the ways we can make America's favorite meat safer—and tastier—again. Consumed more than any other meat in the United States, chicken is emblematic of today's mass food-processing practices and their profound influence on our lives and health. Tracing chicken's meteoric rise from scarce treat to ubiquitous global commodity, McKenna reveals the astounding role of antibiotics in industrial farming, documenting how and why “wonder drugs” revolutionized the way the world eats—and not necessarily for the better. Rich with scientific, historical, and cultural insights, this spellbinding cautionary tale shines a light on one of America's favorite foods—and shows us the way to safer, healthier eating for ourselves and our children.

MARYN MCKENNA is an award-winning journalist and the author of two critically acclaimed books, *Superbug* and *Beating Back the Devil*. She writes for *Wired*, *National Geographic*, *Scientific American*, *Slate*, *Nature*, *The Atlantic*, the *Guardian*, *National Geographic* magazine's online science salon *Phenomena*, and other publications, and is a senior fellow of the Schuster Institute for Investigative Journalism at Brandeis University.

## SUGGESTIBLE YOU

THE CURIOUS SCIENCE OF YOUR BRAIN'S ABILITY TO DECEIVE, TRANSFORM, AND HEAL

**Erik Vance**

In this riveting narrative, acclaimed science journalist Erik Vance explores the surprising power of suggestibility, and how our expectations and beliefs can shape our bodily responses to pain, disease, and everyday events. Drawing on centuries of research, interviews with leading experts, and international journeys to the field, this book is a fascinating adventure through the world of placebos, false memories, and hypnosis, revealing the groundbreaking science of our highly suggestible minds. From NIH's research labs to a witch doctor's office in Mexico to a traditional Chinese medicine school near Beijing, Vance embarks on a scientific, cultural, and personal journey to show how our brains can influence our well-being in ways we never imagined.

Science journalist ERIK VANCE has written for *National Geographic*, *Slate*, *Harper's*, *Scientific American*, *Nature*, the *New York Times*, *Discover*, and *The Christian Science Monitor* and is a contributing editor at *Discover*. He began his career as a biologist studying dolphin intelligence and coastal ecology before finding his true passion in journalism. In 2012 he was a finalist for a National Magazine award, and in 2015 won the top prize from the National Association of Science Writers. He lives in Mexico City with his wife and son.

## NATIONAL GEOGRAPHIC VISUAL ATLAS OF THE WORLD, SECOND EDITION

**National Geographic**

Uniting National Geographic's incomparable photography with state-of-the-art cartographic technology, this is the most compelling, authoritative, and up-to-the-moment visual atlas on the market.

Reimagined and completely updated for the first time since 2008, National Geographic's visual atlas of the world will delight and inspire. From spectacular space imagery to UNESCO World Heritage Sites, this stunning book showcases the diverse natural and cultural treasures of the world in glorious color. Featuring 400 fascinating maps, 300 new photos, and state-of-the-art cartography and satellite imagery, this is a must-have reference for families, travelers, students, librarians, and scholars. Each page was created in collaboration with the world's premier scientists, geographers, and cartographers and is populated with the most up-to-date information available, making this book the most beautiful and authoritative visual atlas available today.

NATIONAL GEOGRAPHIC cartographers bring nearly a century of mapmaking experience and cutting-edge technology to bear on every atlas product. Over the last decade, techniques used in digital mapping have undergone remarkable changes. Today, satellite and digital imaging technologies provide cartographers with new tools to map and animate Earth and our solar system. Leveraging these emerging technologies to build smart, well-designed, functional, informative atlases is one of the great strengths of National Geographic.

## ULTIMATE JOURNEYS FOR TWO

### EXTRAORDINARY DESTINATIONS ON EVERY CONTINENT

Mike and Anne Howard

In these informative pages, Mike and Anne Howard—officially the World's Longest Honeymooners and founders of the acclaimed travel blog HoneyTrek—whisk you away to journeys of a lifetime. Drawing on their experience traveling together across seven continents, they curate the globe and offer tested-and-approved recommendations for intrepid couples, bringing culture, adventure, and romance to any couple—no matter their age or budget.

Chapters are organized by type of destination (for example, beaches, mountains, and deserts) to help travelers discover new places and experiences based on their interests. Each entry focuses on a specific region, getting to the essence of each locale and its one-of-a-kind offerings. The authors reveal the best time to visit, the best places to stay, and recommended activities—each with its own adventure rating to illustrate level of intensity. Special features include funny and insightful stories from the Howards' own adventures, expert advice from other renowned traveling couples, and tips to increase the romance at each destination. A large map shows every location covered in the book, and each entry has a locator map depicting the city and country. Both entertaining and informative, this book is an invaluable resource and inspiration for a lifetime of travel.

MIKE AND ANNE HOWARD left for their honeymoon in January 2012 and have been exploring the globe ever since on what has become the World's Longest Honeymoon. Using Anne's background as a national magazine editor and Mike's as a digital marketing executive and photographer, they created HoneyTrek.com to chronicle their journey across 50+ countries and share tips with fellow couples looking to make their own travel dreams a reality. Having reviewed more than 100 luxury hotels and excursions across all seven continents, they know the five-star side of travel, but also know how to get to the heart of local culture. The Howards' remarkable journey has been acclaimed by *Condé Nast Traveler*, *Los Angeles Times*, *Daily Mail*, CBS, and more. They've lectured at the Smithsonian and major travel industry trade shows; their travel advice has been the subject of feature articles in *BBC Travel*, *Martha Stewart Weddings*, *The Huffington Post*, and *Entrepreneur* magazine. Most recently, they starred in a Microsoft and Dell national ad campaign.

## JUST MOVE!

A NEW APPROACH TO FITNESS AFTER 50

James P. Owen

This step-by-step guide, written by a best-selling author and former Wall Street titan, provides all the information—and inspiration—you need to feel better, reduce aches and pains, and push back against aging with a personalized fitness program that's right for you. Whatever your fitness goals or preferences, this book is designed to help you pursue the health program that works for you.

An inspirational speaker, author, and former Wall Street rainmaker, Jim Owen was 70 when he decided he had to get fit. Years of a chair-bound lifestyle were taking their toll. Realizing that the old bodybuilding approach was no way to tackle the stiffness, weakness, and aches and pains that come with age, he set off on a journey of discovery and transformation. With help from the experts, he developed a common-sense, step-by-step program that can be tailored to any level of physical ability. Along the way he learned why cardio machines aren't enough, what it takes to be "functionally fit" for daily life, and how to stay motivated. Today, Owen is in better shape than he was at 25, and he is a passionate evangelist for fitness as a way of life. He has proved that you don't have to be powerless in the face of advancing years: if you make a commitment to "just move," you can take charge of the aging process and make your coming years the best they can be.

JAMES P. OWEN is a forty-year veteran of Wall Street and the founder and CIO of the Center for Cowboy Ethics and Leadership. He is the best-selling author of *The Try: The Secret to Success in Life and Career*, *Cowboy Values: Recapturing What America Once Stood For*, and *The Prudent Investor*. He resides in Austin, Texas.

## WHO'S WHO IN AMERICAN HISTORY

LEADERS, VISIONARIES, AND ICONS  
WHO SHAPED OUR NATION

K. M. Kostyal, John M. Thompson, and William R. Gray

This beautiful family reference from National Geographic tells the story of America through its presidents, revolutionaries, visionaries, inventors, entertainers—and even its most notorious villains.

Far more than an encyclopedia, this treasury tells the rich stories of the people who made America's history—and adds context with lush photographs, illustrations, timelines, artifacts, and more. Beginning with precolonial America and continuing through today, this beautifully illustrated book details the fascinating lives of the men and women who helped build the story of our nation. Arranged chronologically, it features some 500 entries illustrated with lavish four-color photography and elegant illustrations. Intriguing stories and historical maps provide additional context in this comprehensive and enlightening look at America's storied past.

K. M. KOSTYAL has written nearly 20 adult and children's titles on human history and natural history, prehistory and geologic history, music, world cultures, and wars. Her most recent works for National Geographic include *Founding Fathers: The Fight for Freedom and the Birth of American Liberty*; *Benjamin Franklin's Wise Words*; *George Washington's Rules to Live By*; and *Great Migrations*, the companion book to the National Geographic Channel's acclaimed series on animal migration.

JOHN M. THOMPSON is an award-winning author of *The Reservoir* and *Love and Lament*. His articles have appeared in *Smithsonian*, the *Washington Post*, and *Islands* among other publications, and his short stories have been published in *Louisiana Literature*, *South Dakota Review*, and other literary journals. He has written or contributed to more than a dozen National Geographic books.

WILLIAM R. GRAY began his 33-year career at the National Geographic Society as a writer in 1968, eventually serving as a vice president and director of the book division for more than ten years. In 2002, he traveled the globe on assignments ranging from the Alps to Alaska to the natural wonders of Africa, and authored such books as *The Pacific Crest Trail* and *Voyages to Paradise: Exploring in the Wake of Captain Cook*. He served as a full-time faculty member of the Writing Department at San Juan College in Farmington, New Mexico.

## NATIONAL GEOGRAPHIC THE INDIAN WARS

### BATTLES, BLOODSHED, AND THE FIGHT FOR FREEDOM ON THE AMERICAN FRONTIER

Anton Treuer

From Lakota warrior Crazy Horse to legendary Geronimo of the Apache Wars, this sweeping history of the American West tells the story of those who defended American Indian lands—and the Native American way of life—from the 1850s through the end of the nineteenth century.

This majestic narrative reveals little-known tales of Native American history, setting each event in the larger historical context of the transformation of the West. In elegant National Geographic style, hundreds of illustrations, maps, photographs, and artwork lay bare the bloody conflicts between Indians and Europeans.

Five stirring chapters reveal the five major types of conflicts involving Indians: the wars of resistance, the wars between empires, the wars between the tribes, the wars of conquest, and the wars of survival. Within each chapter, vivid accounts of each battle tell the gripping stories of the major players, the point of combustion, and the tragic results.

ANTON TREUER, professor of Ojibwe language and culture at Minnesota's Bemidji State University, is editor of *Oshkaabewis Native Journal*, the world's sole journal of the Ojibwe language. He has written 14 books on Native American history, including *The Assassination of Hole in the Day*, *Warrior Nation*, and *Everything You Wanted to Know About Indians But Were Afraid to Ask*. He has received awards from the National Science Foundation, the MacArthur Foundation, the Bush Foundation, the Guggenheim Foundation, and more.

## THE STORY OF INNOVATION

### HOW YESTERDAY'S DISCOVERIES LEAD TO TOMORROW'S BREAKTHROUGHS

**James Trefil, with a Foreword by Destin Sandlin**

Written for science geeks and everyone curious about the world around us, this comprehensive sweep through modern science and technology is a solid family reference, covering the most important innovations and inventions in engineering, physics, mathematics, chemistry, biology and more.

From the structure of the atom to the jet engine, from the world's fossil record to the theory of relativity: here are the crucial breakthroughs in technology, the paradigm shifts that led to modern science, and the discoveries and accomplishments that shape our world today and our future tomorrow. Organized by realm of science and tracing key concepts from origins to the most exciting ideas and advances on the horizon, this book documents the interconnectedness among the crucial milestones of our time. Written in clear, authoritative prose, illustrated with essential photography and diagrams, and laid out in an entertaining and browsable way, this is the go-to book for answers about the way the world works.

JAMES TREFIL, a physicist and author of more than 30 books, is highly regarded as a serious scientist with a knack for explaining difficult concepts for a general audience. He was one of the original authors of *Cultural Literacy* and has continued throughout his career to advocate scientific literacy for all. The Robinson Professor of Physics at George Mason University, he has worked with National Geographic Books not only as an author but frequently as an expert consultant for our books.

DESTIN SANDLIN is an American engineer best known for his educational video series, *Smarter Every Day*, which is hosted on a YouTube channel of the same name and launched in 2007. Sandlin received his bachelor of science from the University of Alabama, where he studied mechanical engineering. Later he obtained a graduate degree in Aerospace Engineering from the University of Alabama in Huntsville. He is a full-time Missile Flight Test Engineer at Redstone Arsenal.

## REMEMBERING DIANA

A LIFE IN PHOTOGRAPHS

National Geographic, with a Foreword by Tina Brown

For the millions who adored the People's Princess, this lavish book celebrates Diana Spencer's life in pictures. Page after page of inside photos from the legendary National Geographic archives document the royal's most memorable moments in the spotlight; a luminous, personal remembrance by Diana friend and biographer Tina Brown adds context and nuance to a poignant life twenty years after her tragic death. Float down memory lane through more than 100 remarkable images of Diana, from her days as a schoolgirl to her engagement to Prince Charles, the births of Princes William and Harry, and her life in the media as an outspoken advocate for the poor, the sick, and the downtrodden. This elegant book features reflections from those who knew her best, recollections from dignitaries and celebrities like Nelson Mandela and Elton John, and personal insight through the princess's own words. Published to commemorate the twentieth anniversary of Diana's death, this richly illustrated book is an ode to one of the world's most beloved women.

TINA BROWN is an award-winning journalist, editor, author, and founder and CEO of Tina Brown Live Media, a company dedicated to summits, salons, flash forums, and debates. Between 1979 and 2001, she was editor-in-chief of *Tatler*, *Vanity Fair*, and *The New Yorker* and she also authored the 2007 best-selling biography of the Princess of Wales, *The Diana Chronicles*. In 2000, she was awarded the honor of Commander of the Order of the British Empire by the queen for her services to journalism. In October 2008 Brown launched and edited the digital news site *The Daily Beast*, which won the news website of the year award in 2012 and 2013. In 2010 she launched the annual Women in the World Summit that convenes extraordinary leaders, inspirational activists, and political change-makers from all over the world at the three-day event at Lincoln center. She is married to editor, publisher, and historian Sir Harold Evans and lives in New York City.

## SHARK

Brian Skerry

Get closer to the beauty and power of sharks with award-winning National Geographic photographer Brian Skerry as he illustrates their remarkable evolutionary adaptations and their huge importance to marine ecosystems around the world.

For decades, acclaimed National Geographic underwater photographer Brian Skerry has braved ocean depths and the jaws of predatory giants to capture the most remarkable photographs of sharks around the world. In this collection of the best of those pictures, Skerry draws on his growing personal respect for these animals to share intimate stories of their impact. Focusing on four key species—great white, whitetip, tiger, and mako sharks—Skerry's photographs span from his early work, photographing them from cages, to his recent unencumbered scuba dives. With additional text by top National Geographic writers, Skerry's images and stories encourage a change in attitude toward these great predators, ultimately showing how they are the keys to the healthy balance of nature underwater.

BRIAN SKERRY is a photojournalist specializing in marine wildlife and underwater environments. Since 1998 he has been a contract photographer for *National Geographic* magazine covering a wide range of subjects and stories. In 2014 he was named a National Geographic Photography Fellow. In 2015 Skerry was named a Nikon Ambassador, and in 2017 he received the National Geographic Photographer's Photographer Award.
