The Prequel to Ken Follett's THE PILLARS OF THE EARTH

The Evening and the Morning

Ken Follett

From the #1 *New York Times* bestselling author, a thrilling and addictive new novel--a prequel to *The Pillars of the Earth*--set in England at the dawn of a new era: the Middle Ages

It is 997 CE, the end of the Dark Ages. England is facing attacks from the Welsh in the west and the Vikings in the east. Those in power bend justice according to their will, regardless of ordinary people and often in conflict with the king. Without a clear rule of law, chaos reigns.

In these turbulent times, three characters find their lives intertwined. A young boatbuilder's life is turned upside down when the only home he's ever known is

raided by Vikings, forcing him and his family to move and start their lives anew in a small hamlet where he does not fit in. . . . A Norman noblewoman marries for love, following her husband across the sea to a new land, but the customs of her husband's homeland are shockingly different, and as she begins to realize that everyone around her is engaged in a constant, brutal battle for power, it becomes clear that a single misstep could be catastrophic. . . . A monk dreams of transforming his humble abbey into a center of learning that will be admired throughout Europe. And each in turn comes into dangerous conflict with a clever and ruthless bishop who will do anything to increase his wealth and power.

Thirty years ago, Ken Follett published his most popular novel, *The Pillars of the Earth*. Now, Follett's masterful new prequel *The Evening and the Morning* takes us on an epic journey into a historical past rich with ambition and rivalry, death and birth, love and hate, that will end where *The Pillars of the Earth* begins.

Get Ready for A DEADLY EDUCATION

A Deadly Education

Naomi Novik

From the *New York Times* bestselling author of *Uprooted* and *Spinning Silver* comes the story of an unwilling dark sorceress who is destined to rewrite the rules of magic.

“The dark school of magic I’ve been waiting for.”
Katherine Arden, author of *Winternight Trilogy*

I decided that Orion Lake needed to die after the second time he saved my life.

Everyone loves Orion Lake. Everyone *else*, that is. Far as I’m concerned, he can keep his flashy combat magic to himself. I’m not joining his pack of adoring fans.

I don’t need help surviving the Scholomance, even if they do. Forget the hordes of monsters and cursed artifacts, I’m probably the most dangerous thing in the place. Sometimes I think they want me to turn into the evil witch they assume I am. The school itself certainly does.

But the Scholomance isn’t getting what it wants from me. And neither is Orion Lake. I may not be anyone’s idea of the shining hero, but I’m going to make it out of this place alive, and I’m not going to slaughter thousands to do it, either.

With flawless mastery, Naomi Novik creates a heroine for the ages—a character so sharply realized and so richly nuanced that she will live on in hearts and minds for generations to come.
