The Anthropocene Reviewed

John Green

A deeply moving and insightful collection of personal essays from #1 bestselling author John Green, adapted from his critically acclaimed podcast.

The Anthropocene is the current geological age, in which human activity has profoundly shaped the planet and its biodiversity. In this remarkable symphony of essays adapted and expanded from his groundbreaking podcast, John Green reviews different facets of the human-centered planet—from the QWERTY keyboard and *Staphylococcus aureus* to the Taco Bell breakfast menu—on a five-star scale.

Complex and rich with detail, the *Anthropocene's*

reviews have been praised as “observations that double as exercises in memoiristic empathy.” John Green’s gift for storytelling shines throughout this artfully curated collection that includes both beloved essays and all-new pieces exclusive to the book.

A New Space Adventure from Andy Weir to Rival THE MARTIAN

Project Hail Mary

Andy Weir

A lone astronaut must save the earth from disaster in this incredible new science-based thriller from the #1 *New York Times* bestselling author of *The Martian*.

Ryland Grace is the sole survivor on a desperate, last-chance mission—and if he fails, humanity and the earth itself will perish.

Except that right now, he doesn't know that. He can't even remember his own name, let alone the nature of his assignment or how to complete it.

All he knows is that he's been asleep for a very, very long time. And he's just been awakened to find himself millions of miles from home, with nothing but two corpses for company.

His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurling through space on this tiny ship, it's up to him to puzzle out an impossible scientific mystery—and conquer an extinction-level threat to our species.

And with the clock ticking down and the nearest human being light-years away, he's got to do it all alone.

Or does he?

An irresistible interstellar adventure as only Andy Weir could deliver, *Project Hail Mary* is a tale of discovery, speculation, and survival to rival *The Martian*—while taking us to places it never dreamed of going.

David Yoon's Virtually Thrilling Adult Debut

Version Zero

David Yoon

From the brilliant mind of *New York Times* bestselling author David Yoon comes a lightning-fast and scorchingly observant thriller about how we can save ourselves from the very real perils of a virtual world.

Max, a data whiz at the social media company Wren, has gotten a firsthand glimpse of the dark side of big tech. When he questions what his company does with the data they collect, he's fired...then black-balled across Silicon Valley.

With time on his hands and revenge on his mind, Max and his longtime friend (and secretly the love of his life) Akiko, decide to get even by rebooting the internet. After all, in order to fix things, sometimes you have to break them. But when Max and Akiko join forces with a reclusive tech baron, they learn that breaking things can have unintended--and catastrophic--consequences.
